Intense pressure for potent results.

A range of intense pressures and techniques are applied to release the harmful build-up of lactic acid within the muscles - often causes discomfort and tension on a day-to-day basis.

Each and every deep tissue massage is unique and tailored to the individual. We incorporate moderate to firm traditional massage techniques for maximum results.

Vino Perfect

A unique treatment for restoring radiance

Specifically created for tired, grumpy skin, this treatment restores radiance and vitality. Alongside a thorough cleanse, the sculpting modelage is the highlight of this treatment.

Using essential oils worked into the skin with small hot and cold basalt stones, microcirculation is stimulated, while a radiance mask enriched with glycolic acid gently peels away the dull layers to restore luminosity. The powerful combination between the Vino Perfect Radiance Serum Complexion Corrector and Radiance Moisturiser add a finishing touch to this treatment – for a rested, radiant, whole new you.

Gift Duration: Allow 55 minutes
